

# AI BASED REAL TIME OPTIMIZATION SOLUTION

- Real Time Optimizer (RTO)
- Operates Both in Closed and Open Loop
- Reduced Energy Consumption
- Increased Plant Productivity
- Improved Cost Savings
- Reduction in CO2 Emissions
- NO-CODE Solution – Minimum Programming Knowledge Required

**Increase Efficiency & Productivity, Improve Quality**

- Power Quality Solutions
- Realtime Visualization & Monitoring
- Advanced Reporting & Analysis
- Alarm and Event Management
- History & trend Support
- Web Connectivity

**Optimize Energy Consumption, Increase Profitability**

# Power Factor Correction & Active Harmonic Filters

- Automated Power Factor Corrections
- Stepped / Stepless Capacitor Banks
- Displacement Power Factor Correction – Optimized Unity Power Factor
- Improved Power Quality
- Reduced Energy Costs
- Enhanced Equipment Lifespan and Efficiency

**Reduced Energy Cost and Improved Equipment Life**
